

Great news....!! We are now carrying out new fishing packages to the the Central Patagonia.

As always, we think in our fly fishermen friends, therefore we have incorporated two new world class fishing destinations, the first one is , Cochamo Valley area that is in the middle of superb scenary of the Andes, nice streams and lakes. The second one is Coyhaique, this last one area has countless waters, remote and wild rivers, remote lakes, secluded streams, spring creeks, all them in mid of dreamt solitude with unsurpassable opportunities of fishing.
