

First time that Jim came to Palena and Yelcho, he was with me fishing Coyhaique the two previous years, fishing was good there, most people know Coyhaique has great fishing too, I was telling him about the goodness of the fishing in Yelcho, in spite of he all the time believed me, he still was surprised and he finally fell in deep love with this area. You can see just some of the many captures he had along the week fishing with us, most of them on dries.

This is in the Palena Caynon, one of my favorite rivers to float..... good browns there.....!!!!
