

Here we use to fish some famous rivers as Petrohue, Maullin, Puelo, among others private and secluded fishing spots of the region. We practice nymph, dry and streamer fishing, although the streamers flies are the best choice to catch big fish. The zone has excellent trout fishing, also good for Atlantic salmon, but lately is well known as a great fishing destination for King Salmon. For further information, request our brochure that contains extensive pages about the fishing packages of this region.
